Instructor: Dr. Kenneth Kellum (Captain Calculus)
Office: DH 215
Office Hours: M & W 11:30-12:20, T & Th 1:30-2:20, F 9:30-10:20
Phone: 924-1395
e-mail: kellum@math.sjsu.edu

Web page: [http://www.math.sjsu.edu/faculty/kellum](http://www.math.sjsu.edu/faculty/kellum)

Text: James Stewart, Calculus, Early Transcendentals, 5th Ed.

Chapters to be covered: Most of Chapters 5, 6, 7, 8, 11 and Appendix G.

Midterms: We will have three midterms. Do not come to a midterm without a working calculator. You will not be allowed to share one with another student.

Make-ups: If you must miss a midterm due to illness or another emergency, and contact me in advance I will give you a make-up. Otherwise, if you miss a midterm, I will use your score from that portion of the final exam covering the material on the midterm.

Quizzes: We will have a test or quiz every Thursday. Makeups are not possible for quizzes. I will drop your lowest two quiz scores.

Homework: Whether or not I collect homework depends on whether I get a grader for this class. An announcement will be made in class.

Final Exam:
Comprehensive: Tuesday, May 23, 9:45 am.

Grading:
Quizzes: 100 possible points.
Midterms: 300 possible points (total).
Final exam: 200 possible points.

At the end of the semester I will sort the students by total points and grades will be given accordingly. There is no preset scale. After each midterm I will give you an estimate of what I think is A-work, B-work, etc., but only points will be recorded.

Academic Dishonesty: Anyone caught cheating in any way whatsoever on any exam will get a zero on the exam and will be reported to the office of academic dishonesty. Some examples of cheating are copying, allowing someone to copy, and using unauthorized notes.

Calculators:
You will need a graphing calculator such as the TI 89. I will restrict calculator use on some tests and quizzes.

Advertisement:
The Calculus is one of the greatest cultural, intellectual and scientific achievements of mankind. In this course you will learn ideas that have changed the world. This is one of the most difficult courses taught at this university. If you take the right attitude, it is also a lot of fun.
